

A new feature in MyMediasite allows quiz questions to be added and overlaid in Mediasite presentations. When you add a quiz question, Mediasite will automatically pause the video and have the student answer questions. The video will continue after the questions have been answered. Mediasite can provide a spreadsheet of all student responses and percentages of correct answers.

*Please note: at this time, there is no direct integration of answers from Mediasite Quizzes into Canvas. To enter Quiz results into your Canvas gradebook, you will manually need to enter responses.*

The screenshot displays the MyMediasite web application interface. At the top, there is a navigation bar with 'Home', 'Moderation', and an 'Add Media' button. The left sidebar shows the user 'Brandon' with options for 'My Presentations', 'My Drafts', 'Channels', and 'Shared Folders'. The main area features a video player showing a presentation slide. Below the player are tabs for 'Information', 'Delivery', 'Actions', and 'Annotate'. The 'Information' tab is active, showing fields for 'TITLE' (Unnamed Presentation), 'DESCRIPTION' (No Description), 'TAGS' (No Tags), and 'LINKS'. On the right, a sidebar lists actions like 'Watch', 'Edit', 'View Analytics', 'Publish', 'Copy To', 'Move To', 'Edit Video', and 'Edit Slides'. A red arrow points to the 'Edit Quizzes' button in this sidebar. Below 'Edit Quizzes' are 'Edit Polls' and 'Q & A Forum Disabled'. Further down, it shows 'RECORDED ON' (May 8, 2018 4:53 PM), 'UPLOADED ON' (May 8, 2018 4:55 PM), and 'STATISTICS' (2 Views).

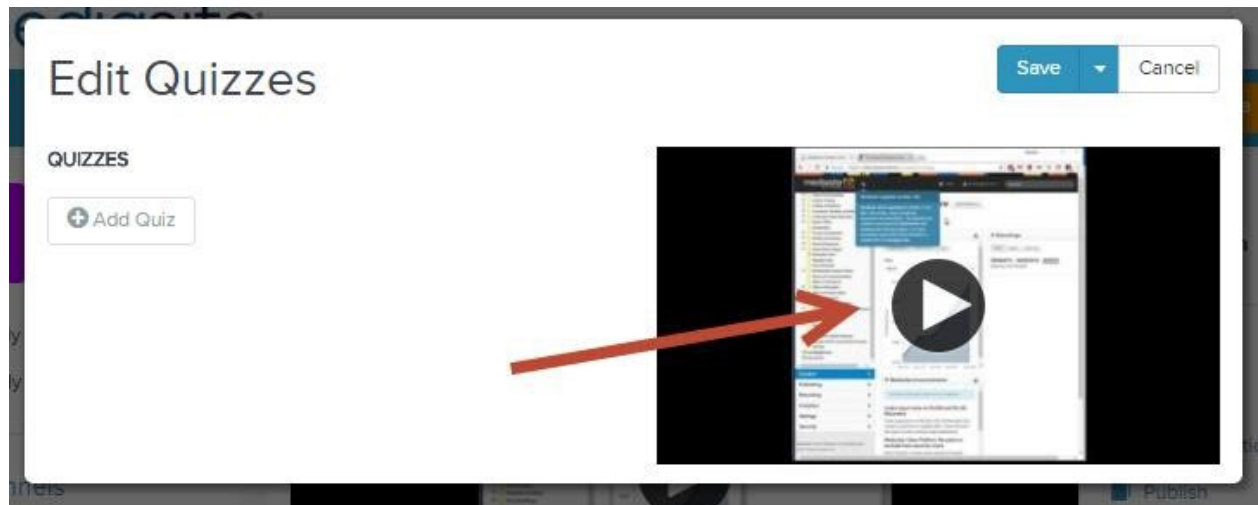

Within MyMediasite, click the **Edit Quizzes** button.

The screenshot shows a 'Create Quizzes' window with a blue header. Below the header is the 'General Settings' section, which includes a 'Quiz Type' area with three buttons: 'Study Guide' (highlighted with a blue border), 'Assessment' (with a checked checkbox), and '% Scored'. Below these are two columns of checkboxes: 'Show users their score' (checked), 'Show users their correct answers' (checked), 'Show users results after each quiz' (checked), 'Require users to submit their answers' (unchecked), 'Allow answer edits after submission' (checked), and 'Randomly order answer choices' (checked). The 'Introduction Screen' section follows, with a 'Title' text box containing 'Unnamed Presentation' and a 'Description' text box containing 'Description'. At the bottom right are 'Next' and 'Cancel' buttons.

There are three types of Quizzes. Here are the main differences:

- **Study Guide:** This allows students to view their score and all correct answers after they've answered the questions. Students can also choose whether or not to submit their responses to be graded.
- **Assessment:** This allows students to view their score after they've answered the questions, but does not show the students the correct answers. Users can edit their answers after submission.
- **Scored:** This allows students to view their score after they've answered the questions, but does not show the students the correct answers. Users cannot edit their answers after submission.

Whatever you enter in the **Title** and **Description** text boxes will appear when a student opens the presentation.

On Edit Quizzes page, click the Play button.

Navigate to a time on the timeline where you'd like to add a question.

Click **Add Quiz**.

A dialog box titled "Create New Quiz" with a blue header. It contains a "Title" field with a placeholder "Title", a "Position" field with a clock icon and "0:00:20", and a "Description" field with a placeholder "Description". There is a red "Sync to Video" button next to the position field. At the bottom right are "Done" and "Cancel" buttons.

You are asked to title this Quiz. (You can have as many quizzes as you'd like during a given presentation. Each quiz can have as few as 1 question.) I have titled mine **Question 1**.

A dialog box titled "Question 1" with a blue header. It contains a "Quiz Settings" button with a gear icon. Below the header is a section titled "QUESTIONS" with an "Add Question" button that has a plus icon.

Multiple Choice - Single Answer

Multiple Choice - Many Answers

True or False

There are three types of questions you can ask: a question with one answer, multiple answers, or a true/false

**Question 1**

**QUESTIONS**

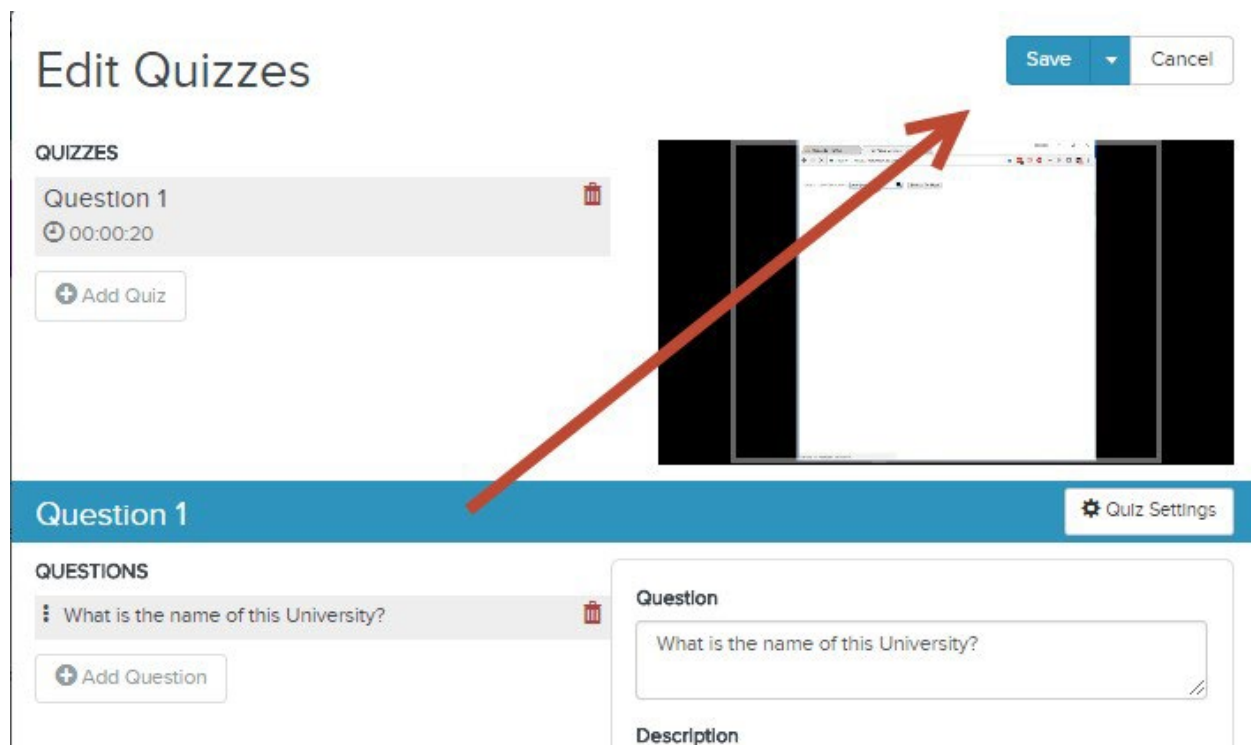

What is the name of this University?

+ Add Question

You can add more questions to this quiz by clicking **Add Question**.

To create another quiz in the presentation, jump ahead to where you'd like the next question or set of questions to show up on the Mediasite video and then click **Add Quiz**. You can then enter more questions as outlined in the steps above.

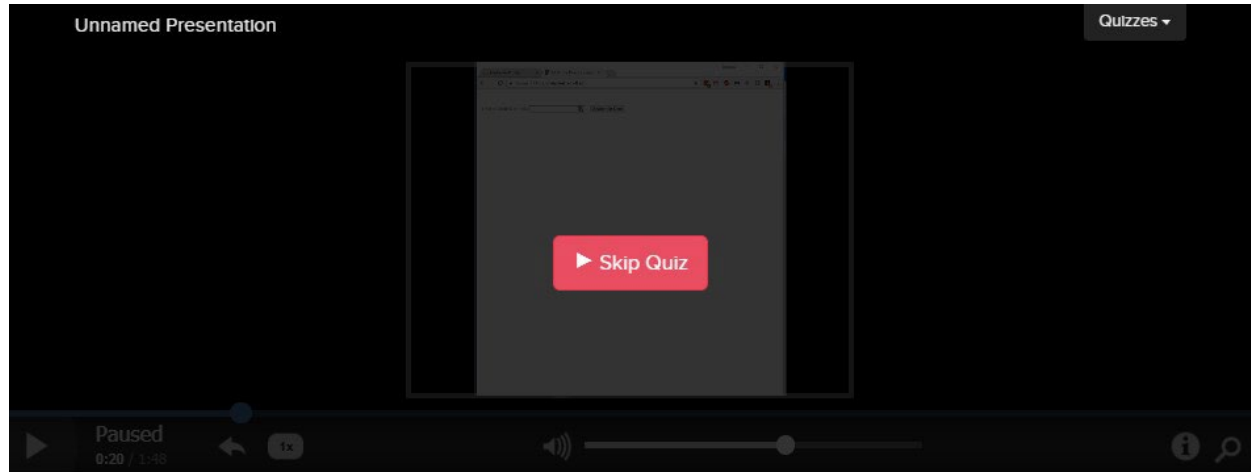

When you are ready, click Save. Click **OK** when it asks you to override Player settings.

# Unnamed Presentation

The presentation you are about to view contains interactive quizzes that will appear during playback. Please be sure to review and submit your answers at the end of the presentation.

Let's Go

Now when you watch the video link, the Title that you entered at the beginning will appear. Click **Let's Go** to watch your presentation.

## Question 1

1 questions

Take Quiz

When students arrive at the point in the video that you added your first quiz, they will see the Quiz window pop up like this.

- Edit Quizzes
- Edit Polls
- Q & A Forum  
Disabled

To view students responses click on Analytics and then the Quiz tab.

The screenshot shows the Canvas LMS interface. The top navigation bar includes Home, Moderation, and a user profile icon. On the right, there is an 'Add Media' button and a search icon. The left sidebar shows the user's profile (Rg, rgs0007) and a list of 'My Presentations' including 'My Drafts' and 'My Video Assignments'. Below this, there are 'Channels' (CIL Website Media) and 'Shared Folders' (no favorite shared folders).

The main content area is titled 'Presentation Analytics' and has tabs for 'Dashboard', 'Who's Watching', and 'Quiz'. The 'Quiz' tab is selected. Below the tabs, there is a 'Quiz Results' section with a 'Download Report' button. A table displays the quiz results for user rgs0007, showing the date taken, score, time watched, and coverage. A 'Details' button is available for each row.

User	Taken	Submitted	Done	Score	Time Watched	Coverage
rgs0007	Jan 9, 2019 2:59 PM			0.0%	00:01:55	00:01:55 (3.2%)

Click on Download Report and then **Excel** and a spreadsheet will download featuring all of the student responses.

It is worth noting again that at this time, there is no direct integration of answers from Mediasite Quizzes into Canvas. To enter Quiz results into your Canvas gradebook, you will manually need to enter responses.
